NOTES:

- 1) Miscellaneous items, directed work, connections, etc., not specifically listed but required for improvements to a complete and operational system shall be included in the Bid under the most appropriate category.
- 2) Time required to complete base bid work shall be 150 calendar days.
- 3) Contractor is solely responsible for following all applicable local, state and federal regulations for disposal, as necessary.
- 4.) Due to global raw material shortage in the coatings industry, it is in the best interest of the project to purchase all coatings needed in one order. This will allow the project to continue and not be delayed by multiple orders.
- 5.) Should Exterior Coatings be deducted for the Piggy Loop Tank, the contractor shall provide exterior coatings to match existing on areas that maintenance is performed. (ex. vent, manways, etc..)
